

YESBOL ZHOLDASBAY

Linux System Administrator | DevOps Engineer | Cloud & IT Infrastructure Specialist

Almaty, Kazakhstan | +7 777 270 2274 | esbolyegizekov@gmail.com | Kazakh: Native | Russian: C1 | English: B1

PROFESSIONAL SUMMARY

IT Infrastructure and DevOps-oriented specialist with 4+ years of hands-on experience across Linux/Windows administration, cloud infrastructure, monitoring, automation, CI/CD, database administration, enterprise systems, ITSM/service desk platforms, web services and production support. Experienced in finance, retail, restaurant IT, healthcare, education and hosting environments. Strong in practical troubleshooting, infrastructure reliability, automation and clear communication with developers, support teams, vendors and business users. Currently focused on growing as a DevOps / Cloud Engineer across Azure, AWS, Azure DevOps, GitHub Actions, CI/CD and Microsoft enterprise ecosystems.

CORE TECHNICAL SKILLS

Operating Systems	Linux: Ubuntu, Debian, CentOS, RHEL/AlmaLinux; Windows Server; Active Directory basics and access management
DevOps & CI/CD	Docker, Kubernetes, Helm basics, Ansible, Bash, Python, cron, systemd, Git, GitHub Actions, Azure DevOps, CI/CD pipelines, deployment automation
Cloud Platforms	AWS: EC2, S3, Route 53, CloudWatch, IAM, CloudTrail; Azure basics; Freedom Cloud; cloud server administration
Monitoring & Logs	Zabbix, Prometheus, Grafana, Nagios, Elasticsearch/ELK, log analysis, incident diagnostics and alerting
Backend & Web	PHP, LAMP stack, Django, Django REST Framework, FastAPI, REST API, Celery basics, Nginx, Apache HTTP Server
Frontend & UI	HTML, CSS, JavaScript, AngularJS, React basics, Astro, responsive layout, API integration, UI troubleshooting
Databases & DB Administration	PostgreSQL, MySQL/MariaDB, Oracle, SQLite, SQL queries, schema updates, indexes, migrations, performance troubleshooting, backup/restore, basic database administration
Networking & Security	TCP/IP, DNS, HTTP/HTTPS, SSH, FTP, ICMP, SNMP, SSL/TLS, VPN, firewalls, iptables, firewalld, MikroTik, Cisco core/switching/routing, Cisco FTD basics, network equipment troubleshooting
Virtualization & Hosting	VMware ESXi, Hyper-V, Proxmox, KVM, Plesk, cPanel/WHM, DNS hosting, SSL automation, website migration
Enterprise Systems & ITSM	Atlassian Jira, Confluence, GLPI, ServiceDesk systems, Active Directory, Microsoft 365 basics, user/account lifecycle support, incident/change/request workflows

PROFESSIONAL EXPERIENCE

Linux System Administrator - Freedom Finance Life JSC

June 2025 - Present | Almaty, Kazakhstan | Financial services / insurance

- Administer production Linux servers: OS installation, network configuration, users/groups, filesystems, services, patching and troubleshooting.
- Monitor infrastructure health and investigate incidents using Linux utilities, Zabbix, Prometheus, Grafana and log analysis.
- Manage access and security-related tasks: SSH, permissions, firewall rules, updates and basic hardening.
- Support network-related operations and troubleshooting, including MikroTik, Cisco core network equipment and Cisco FTD/firewall-related basic diagnostics.
- Support backup and recovery workflows using rsync, tar, cron and Veeam-related operational processes.
- Automate routine administration with Bash, Ansible, cron and systemd; support Docker/Kubernetes workloads and virtualized environments.
- Troubleshoot web services and databases including Nginx/Apache, PostgreSQL, MySQL and Oracle-related integrations.
- Support enterprise systems and ITSM workflows, including Jira/Atlassian, GLPI/ServiceDesk-type tools, Active Directory and Microsoft 365 user/account operations.

IT Systems Integration Engineer - QSR / Burger King Kazakhstan

January 2025 - Present | Almaty, Kazakhstan | Restaurant / retail IT

- Support restaurant IT infrastructure: servers, network devices, POS systems, payment terminals, printers, Wi-Fi, internet and VPN links.
- Troubleshoot network connectivity and equipment issues involving MikroTik, Cisco network devices/core infrastructure and firewall/VPN-related incidents.
- Work with internal ERP/POS/CRM systems and integrations with Yandex Delivery, Glovo, Chocofood, Wolt and other platforms.
- Troubleshoot API, XML, webhook, data synchronization and operational integration issues.
- Provide remote production support to restaurant staff and resolve access, service, hardware and software incidents.
- Administer Windows/Linux servers and support PostgreSQL/SQLite databases, monitoring and operational reporting.
- Work with service desk and corporate systems for incident tracking, access requests, documentation and vendor communication.

Software Engineer / LAMP Developer - DataRocks

December 2025 - May 2026 | Remote | IT consulting / systems integration

- Developed and supported web applications on LAMP: Linux, Apache/Nginx, MySQL/MariaDB and PHP.
- Built backend logic, REST APIs, authentication/roles, validation, business logic and file/image handling.
- Worked on frontend tasks with HTML, CSS, JavaScript, AngularJS and Astro-based pages, including responsive layout and API integration.
- Designed and updated database schemas, SQL queries, indexes, migrations, backups and restore workflows.
- Configured Apache/Nginx virtual hosts, SSL/TLS, DNS records, permissions, logs, cron jobs and dev/stage/prod environments.
- Supported Plesk-based hosting: domains, PHP versions, SSL, migration, backups, log analysis and Linux server administration.

Linux Support Engineer / L2 Support - MED365 LLP

January 2025 - February 2026 | Almaty, Kazakhstan | Healthcare IT

- Monitored and administered Linux servers, investigated failures, analyzed logs and supported users and internal technical teams.
- Troubleshot Linux, database, web service and application environment incidents.
- Managed packages, updates, access rights and security-related administration tasks.
- Deployed Spring Java, Vue.js, PostgreSQL and Nginx components using Docker containers.
- Collaborated with developers and DevOps engineers to support releases and improve stability.

DevOps Engineer - University of International Business named after K. Sagadiyev

December 2023 - June 2025 | Almaty, Kazakhstan | Education

- Supported CI/CD processes for builds, deployments, updates and service operations.
- Worked with Linux, Docker, Kubernetes, virtualization and infrastructure for test and production environments.
- Configured monitoring and logging with Prometheus, Grafana and Zabbix.
- Wrote Bash/Python scripts to automate routine tasks and prepared technical documentation.
- Worked with AWS and cloud-related services as part of infrastructure and deployment activities.

Second-Line Technical Support Specialist - Magnum Cash & Carry LLP

May 2022 - October 2023 | Almaty, Kazakhstan | Retail

- Provided second-line IT support for retail stores and head-office users, including diagnostics, escalation and service requests.
- Supported POS terminals, handheld devices, printers, electronic scales, cash registers, cameras and network equipment, including MikroTik and Cisco-based network infrastructure.
- Assisted with local network maintenance, workstation troubleshooting and business-critical retail operations.
- Documented incidents and recurring issues in service desk / ITSM systems to improve support quality.

Junior Cloud Engineer - iShowcaseinc

August 2022 - July 2024 | Remote / Los Angeles, USA | Cloud hosting

- Managed Linux-based hosting environments and supported web, mail, DNS and SSL services.
- Installed and maintained cPanel/WHM; configured accounts, domains, DNS, email, SSL, backups and security settings.
- Worked with AWS EC2, S3, Route 53, CloudWatch, IAM, CloudTrail and firewall tools such as CSF/firewalld.
- Automated routine tasks with Bash/Python and supported Git/cPanel workflows for PHP and WordPress deployments.

EDUCATION & ADDITIONAL INFORMATION

- Bachelor's Degree in Information Technology / Computer and Software Engineering - Almaty University of Power Engineering and Telecommunications, 2022
- Technical College Degree in Information Systems - Almaty Economic College, 2019
- 1C: Accounting Certificate - Almaty Economic College, 2019
- Open to full-time, part-time, project/freelance, remote, hybrid or on-site opportunities.

ЕСБОЛ ЖОЛДАСБАЙ

Linux System Administrator | DevOps Engineer | Cloud & IT Infrastructure Specialist

Алматы, Казахстан | +7 777 270 2274 | esbolyegizekov@gmail.com | Казахский: родной | Русский: С1 | Английский: B1

ПРОФЕССИОНАЛЬНОЕ РЕЗЮМЕ

IT-инфраструктурный и DevOps-ориентированный специалист с практическим опытом более 4 лет в администрировании Linux/Windows, облачной инфраструктуре, мониторинге, автоматизации, CI/CD, администрировании баз данных, корпоративных системах, ITSM/service desk платформах, веб-сервисах и поддержке production-систем. Работал с критичными системами в финансовой, retail, restaurant IT, healthcare, education и hosting средах. Сильные стороны: практическое troubleshooting-мышление, надежность инфраструктуры, автоматизация и понятная коммуникация с разработчиками, поддержкой, подрядчиками и бизнес-пользователями. Сейчас развиваюсь в направлении DevOps / Cloud Engineering: Azure, AWS, Azure DevOps, GitHub Actions, CI/CD и Microsoft enterprise ecosystems.

КЛЮЧЕВЫЕ ТЕХНИЧЕСКИЕ НАВЫКИ

ОС	Linux: Ubuntu, Debian, CentOS, RHEL/AlmaLinux; Windows Server; базовый Active Directory и управление доступами
DevOps и CI/CD	Docker, Kubernetes, основы Helm, Ansible, Bash, Python, cron, systemd, Git, GitHub Actions, Azure DevOps, CI/CD pipelines, автоматизация деплоя
Облака	AWS: EC2, S3, Route 53, CloudWatch, IAM, CloudTrail; базовый Azure; Freedom Cloud; администрирование cloud-серверов
Мониторинг и логи	Zabbix, Prometheus, Grafana, Nagios, Elasticsearch/ELK, анализ логов, диагностика инцидентов и alerting
Backend и Web	PHP, LAMP stack, Django, Django REST Framework, FastAPI, REST API, основы Celery, Nginx, Apache HTTP Server
Frontend и UI	HTML, CSS, JavaScript, AngularJS, основы React, Astro, адаптивная верстка, интеграция с API, исправление UI-ошибок
Базы данных и администрирование БД	PostgreSQL, MySQL/MariaDB, Oracle, SQLite, SQL-запросы, схемы, индексы, миграции, диагностика производительности, backup/restore, базовое администрирование БД
Сети и безопасность	TCP/IP, DNS, HTTP/HTTPS, SSH, FTP, ICMP, SNMP, SSL/TLS, VPN, firewalls, iptables, firewalld, MikroTik, ядро сети Cisco/switching/routing, базовый Cisco FTD, диагностика сетевого оборудования
Виртуализация и hosting	VMware ESXi, Hyper-V, Proxmox, KVM, Plesk, cPanel/WHM, DNS hosting, SSL automation, миграция сайтов
Корпоративные системы и ITSM	Atlassian Jira, Confluence, GLPI, ServiceDesk-системы, Active Directory, основы Microsoft 365, сопровождение учетных записей, incident/change/request workflows

ОПЫТ РАБОТЫ

Администратор Linux-систем - Freedom Finance Life JSC

Июнь 2025 - настоящее время | Алматы, Казахстан | Финансовый сектор / страхование

- Администрирование production Linux-серверов: установка ОС, сеть, пользователи/группы, файловые системы, сервисы, обновления и troubleshooting.
- Мониторинг инфраструктуры и расследование инцидентов с использованием Linux-утилит, Zabbix, Prometheus, Grafana и анализа логов.
- Управление доступами и задачами безопасности: SSH, права, firewall rules, обновления и базовое hardening.
- Поддержка сетевых задач и troubleshooting: MikroTik, сетевое ядро Cisco, Cisco switching/routing и базовая диагностика Cisco FTD/firewall-related incidents.
- Поддержка backup/recovery процессов с использованием rsync, tar, cron и Veeam-related workflows.
- Автоматизация рутинных задач через Bash, Ansible, cron и systemd; поддержка Docker/Kubernetes workloads и виртуализации.
- Troubleshooting веб-сервисов и баз данных: Nginx/Apache, PostgreSQL, MySQL и Oracle-related integrations.
- Поддержка корпоративных систем и ITSM-процессов: Jira/Atlassian, GLPI/ServiceDesk-type tools, Active Directory и операции по учетным записям Microsoft 365.

IT Systems Integration Engineer - QSR / Burger King Kazakhstan

Январь 2025 - настоящее время | Алматы, Казахстан | Restaurant / retail IT

- Поддержка IT-инфраструктуры ресторанов: серверы, сеть, POS, терминалы оплаты, принтеры, Wi-Fi, интернет и VPN.
- Диагностика сетевой связности и оборудования: MikroTik, Cisco network devices/core infrastructure, firewall/VPN-related incidents.
- Работа с ERP/POS/CRM системами и интеграциями с Yandex Delivery, Glovo, Chocofood, Wolt и другими платформами.
- Troubleshooting API, XML, webhook, data synchronization и operational integration issues.
- Удаленная production-поддержка сотрудников ресторанов, решение проблем с доступами, сервисами, оборудованием и ПО.
- Администрирование Windows/Linux серверов, поддержка PostgreSQL/SQLite, мониторинга и операционной отчетности.
- Работа с service desk и корпоративными системами для incident tracking, access requests, документации и коммуникации с подрядчиками.

Software Engineer / LAMP Developer - DataRocks

Декабрь 2025 - май 2026 | Удаленно | IT consulting / systems integration

- Разработка и поддержка web-приложений на LAMP: Linux, Apache/Nginx, MySQL/MariaDB и PHP.
- Backend: REST API, authentication/roles, validation, business logic, работа с файлами и изображениями.
- Frontend: HTML, CSS, JavaScript, AngularJS и Astro-based pages, адаптивная верстка и интеграция с API.
- Работа с БД: схемы, SQL-запросы, индексы, миграции, backups и restore workflows.
- Настройка Apache/Nginx virtual hosts, SSL/TLS, DNS, прав, логов, cron jobs и dev/stage/prod окружений.
- Поддержка Plesk-based hosting: домены, PHP versions, SSL, миграции, backups, анализ логов и Linux administration.

Linux Support Engineer / L2 Support - MED365 LLP

Январь 2025 - февраль 2026 | Алматы, Казахстан | Healthcare IT

- Мониторинг и администрирование Linux-серверов, расследование сбоев, анализ логов и поддержка пользователей/технических команд.
- Troubleshooting инцидентов по Linux, базам данных, web-сервисам и application environments.
- Управление пакетами, обновлениями, правами доступа и security-related administration tasks.
- Деплой компонентов Spring Java, Vue.js, PostgreSQL и Nginx в Docker containers.
- Взаимодействие с разработчиками и DevOps для поддержки релизов и повышения стабильности.

DevOps Engineer - University of International Business named after K. Sagadiyev

Декабрь 2023 - июнь 2025 | Алматы, Казахстан | Education

- Поддержка CI/CD процессов для build, deployment, updates и service operations.
- Работа с Linux, Docker, Kubernetes, virtualization и infrastructure для test/production environments.
- Настройка monitoring/logging через Prometheus, Grafana и Zabbix.
- Написание Bash/Python scripts для автоматизации и подготовка технической документации.
- Работа с AWS и cloud-related services в рамках инфраструктурных и deployment задач.

Специалист технической поддержки 2-й линии - Magnum Cash & Carry LLP

Май 2022 - октябрь 2023 | Алматы, Казахстан | Retail

- Вторая линия поддержки магазинов и head-office пользователей: диагностика, эскалации и service requests.
- Поддержка POS terminals, handheld devices, printers, electronic scales, cash registers, cameras и network equipment, включая MikroTik и Cisco-based network infrastructure.
- Поддержка локальной сети, рабочих станций, ПО и business-critical retail operations.
- Документирование инцидентов и повторяющихся проблем в service desk / ITSM-системах для улучшения качества поддержки.

Junior Cloud Engineer - iShowcaseinc

Август 2022 - июль 2024 | Remote / Los Angeles, USA | Cloud hosting

- Администрирование Linux-based hosting environments и поддержка web, mail, DNS и SSL services.
- Установка и сопровождение cPanel/WHM; настройка accounts, domains, DNS, email, SSL, backups и security settings.
- Работа с AWS EC2, S3, Route 53, CloudWatch, IAM, CloudTrail и firewall tools: CSF/firewalld.
- Автоматизация рутинных задач через Bash/Python и поддержка Git/cPanel workflows для PHP и WordPress deployments.

ОБРАЗОВАНИЕ И ДОПОЛНИТЕЛЬНАЯ ИНФОРМАЦИЯ

- Бакалавр: Информационные технологии / Вычислительная техника и программное обеспечение - Алматинский университет энергетики и связи, 2022
- Среднее специальное образование: Информационные системы - Алматинский экономический колледж, 2019
- Сертификат 1С: Бухгалтерия - Алматинский экономический колледж, 2019
- Рассматриваю full-time, part-time, project/freelance, remote, hybrid и on-site форматы работы.
